caffeine metabolic process
cellular response to DNA damage stimulus
cellular response to hypoxia
cellular response to lipid
cellular response to oxygen-containing compound
cellular response to oxygen levels
cellular response to stimulus
cellular response to stress
cellular response to tumor necrosis factor
cellular response to vitamin
cellular response to xenobiotic stimulus
cellular response to zinc ion
cellular sodium ion homeostasis
chemical homeostasis
chemical homeostasis within a multicellular organism
chemical homeostasis within abdominal organs
chemical homeostasis within tissues
chemical synaptic transmission, postsynaptic
chemical synaptic transmission, presynaptic
chemical synaptic transmission, trans-synaptic
chemical synaptic transmission, trans-synaptic, postsynaptic
chemical synaptic transmission, trans-synaptic, presynaptic
chemical synaptic transmission, trans-synaptic, presynaptic, postsynaptic
chemical synaptic transmission, trans-synaptic, presynaptic, postsynaptic, specific
